

## **Frequently Asked Questions**

### ***Security Module***

**Q. I set Employee Detail Report as component for certain group of user; can I disable some fields in that report only for those users?**

A. No. For this moment, our system will only allow to set entire component instead of certain field in one component.

**Q. Why some unrelated employee information is displayed for unrelated user, after I set correctly in Security module?**

A. This might because of Access Level at Personal Info under Employee Master is not set correctly.
